

The power to improve your neighbourhoods

Creating Successful Partnerships

A workshop session designed to provide a well grounded starting point for those new to partnership working & an opportunity to learn from lessons & best practice for those already involved.

What's in it for you?

- Plans, skills and techniques to take back and implement
- Learn from real life case studies
- Opportunity to network and meet new contacts

What's in it for your organisation?

- Expanding techniques and contacts
- Identifying new partners and opportunities to work with them
- Reviving partnership approach through regional learning

By the end of this session you'll be able to...

Understand the basis for partnership working and why it is important

Plan to identify the key partners you should be working with and new ones to approach

Use the 7 steps for forming a partnership

Identify steps to Problem solving and how to tackle issues

Understand and using techniques for successful signposting

Identify partner communication methods

What's involved?

An interactive workshop with exercises, theory, research based learning, group discussion activities and networking opportunities.

- Supporting handouts and reference resources
- Lunch and refreshments included
