

The power to improve your neighbourhoods

## Approaches to Effectively Engaging with Young People

An introductory workshop that looks at the current challenges facing young people in neighbourhoods. This programme will discuss the possible causes, solutions and agencies supporting young people whilst providing practical ideas to apply back in your neighbourhood.

### What's in it for you?

- Gaining new skills and best practice approaches
- Identifying support agencies and how to work with them your neighbourhood
- Opportunity to learn from regional examples

### What's in it for your organisation?

- Understanding the role your service plays in supporting young people in neighbourhoods
- Embedding best practice in the workplace
- Opportunities to work with supporting agencies

### By the end of the session you'll be able to...

- Understand the potential challenges and problems that young people face in neighbourhoods
- Identify possible negative influences upon young people
- Understand disaffection
- Identify ways in which young people can contribute to a neighbourhood
- Understand the boundaries there are when working with young people
- Identify organisations that work with young people

### What's involved?

An interactive, scenario based learning programme with practical exercises and research based learning and group activities.

- Supporting handouts and reference resources
- Lunch and refreshments included
